INTRODUCTION. Children with Down syndrome have multiple malformations, medical conditions, and cognitive impairment because of the presence of extra genetic material from chromosome 21. 1,2 Although the phenotype is variable, there typically are multiple features that enable the experienced clinician to suspect the diagnosis. Among the more common physical findings are hypotonia, small ...

As part of our duty to protect the public we hold formal public hearings into cases about dental professionals. Hearings are held once a concern about a dental professional has been looked into and the Case Examiners have decided there is a case. The case is then referred to one of the Practice Committees depending on the type of case, and a hearing is held.
