A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...

Access 2007 introduced the Attachment datatype, which allows you to directly embed items like Excel files, PDF, Images, etc. It's easy to use - just add an Attachment field to your table, then drop that field on your form.

Attaching or linking external files to a record in a MS

I have already tried this registry change, still Outlook displayed to block access to the attachment, in fact, after adding that String Value, that user cannot open any PDF file directly in Outlook, even in his own mailbox when he received an email with PDF attached.

Outlook 2010 cannot open certain PDF attachment.

The Internet (contraction of interconnected network) is the global system of interconnected computer networks that use the Internet protocol suite (TCP/IP) to link devices worldwide. It is a network of networks that consists of private, public, academic, business, and government networks of local to global scope, linked by a broad array of electronic, wireless, and optical networking technologies.
