A currency crisis is a situation in which serious doubt exists as to whether a country's central bank has sufficient foreign exchange reserves to maintain the country's fixed exchange rate. The crisis is often accompanied by a speculative attack in the foreign exchange market. A currency crisis results from chronic balance of payments deficits, and thus is also called a balance of payments crisis.

This paper presents the first empirical evidence in the history of banking on the question of whether banks can create money out of nothing. The banking crisis has revived interest in this issue, but it had remained unsettled.

Can banks individually create money out of nothing? “ The

when we look at the long history of media darlings, all gift wrapped for us, be they Glen Greenwald, or names like Pilger or Assange, we peek behind the curtain for handlers and may well safely assume they are all “CIA thugs” of one type or another.
