A 2007 study by Popular Mechanics found passengers sitting at the back of a plane are 40% more likely to survive a crash than those sitting in the front. Although this article quotes Boeing, the FAA and a website on aircraft safety, all claim there is no "safest" seat. The article studied 20 crashes, not taking into account the developments in safety after those accidents.

This list of disaster films represents over half a century of films within the genre. Disaster films are motion pictures which depict an impending or ongoing disaster as a central plot feature. The films typically feature large casts and multiple storylines and focus on the protagonists' attempts to avert, escape, or cope with the disaster presented.
