

valuing banks a new pdf

In finance, valuation is the process of determining the present value (PV) of an asset. Valuations can be done on assets (for example, investments in marketable securities such as stocks, options, business enterprises, or intangible assets such as patents and trademarks) or on liabilities (e.g., bonds issued by a company). Valuations are needed for many reasons such as investment analysis ...

Valuation (finance) - Wikipedia

Philosophical value is distinguished from economic value, since it is independent on some other desired condition or commodity. The economic value of an object may rise when the exchangeable desired condition or commodity, e.g. money, become high in supply, and vice versa when supply of money becomes low.
