what predictions can be pdf

Predictions have often been made, from antiquity until the present, by using paranormal or supernatural means such as prophecy or by observing omens. Methods including water divining, astrology, numerology, fortune telling, interpretation of dreams, and many other forms of divination, have been used for millennia to attempt to predict the future. These means of prediction have not been proven by ...

As a young reader, your child is learning to make predictions while reading which they can use to monitor their understanding of the story while thinking ahead to the next part. Scientists, just like readers, make predictions all the time. Help your child begin to see the connection between what she does as a reader and what she can do as a scientist.
