

wintering in snow country pdf

Winter is the coldest season of the year in polar and temperate zones (winter does not occur in most of the tropical zone). It occurs after autumn and before spring in each year. Winter is caused by the axis of the Earth in that hemisphere being oriented away from the Sun. Different cultures define different dates as the start of winter, and some use a definition based on weather.

Bird migration is the regular seasonal movement, often north and south along a flyway, between breeding and wintering grounds. Many species of bird migrate. Migration carries high costs in predation and mortality, including from hunting by humans, and is driven primarily by availability of food. It occurs mainly in the northern hemisphere, where birds are funneled on to specific routes by ...

In the author's northern California garden, drip irrigation keeps the warm-season vegetables growing through the hot dry fall. In mid-fall, the garden shows promise for winter broccoli, cabbage, and lettuce, while the summer's strawberry plants (left foreground) and lingering tomatoes (trellised, in the background) grow on.
